Dear Greg,

We would like to express our appreciation for the work you and your talented team from "Time to Renovate" have just completed on our home. We are delighted with the results and the quality of the finish you have achieved.

We were impressed with the extra time you took to discuss and understand our requirements at our initial meeting. Your attention to detail was appreciated.

With walls removed and rebuilt, windows and new cupboards installed, new floors and painting in almost every room, disruption and piles of our furniture and belongings were inevitable but everyone involved did an excellent job of cleaning up after themselves every night and keeping the mess and chaos to an absolute minimum.

We are more than happy to recommend you and your company to our friends and you will be the first person we think of when we do any further work on our house.

Yours sincerely

D and L Dawson
